GLADIOLUS

CUSTOMER COMMENTS

"I had bulbs from 8 different growers. Your bulbs were the finest, cleanest and healthiest of them all. You were most generous with extras, too. Jingles was most choice. Royal Robes won me a blue ribbon at the big Eastern International Show. Marqueeta, Trocadero, Navaho and Virgin won a blue ribbon at the State Show." E. A. W., Canton, N. Y.

"I was highly pleased with the shipment of bulbs from your company. The packaging was perfect including the meticulous attention to labeling; and the bulbs were clean, healthy and of good size. Since gladiolus are my favorite flower it is a real satisfaction to know of an outstanding company from which I can get excellent service." Eugene P. Bertin, Asst., Executive Sec., Penn. State Education Assn., Harrisburg, Pa.

"We are again placing an order for your marvelous bulbs and wish to express our appreciation of the excellent service and quality of your product. Our glads have been praised most highly by all who have had the opportunity to see them in full bloom and we have derived the greatest pleasure and satisfaction in growing them and the best of the "crop" came from your gardens." E. W. H., Poulsen, Mont.

"My first shipment from you this spring was tops. They are all planted and grew 100% and are a foot high now. I will remember LINS GLADIOLUS next season." L. M., Beaumont, Texas.

"The bulbs you sent me produced gorgeous bloom. I am just an amatuer but I had just as fine bloom as my neighbor who has been growing glads 20 years. Thanks a million." Mrs. J. M., Euclid, Ohio.

"The lot you sent me a year ago were just about the best glads I have ever seen. You are to be congratulated for some of the fine things you have introduced, both gladiolus and peonies. It must be a source of great satisfaction." L. S., Long Island, N. Y.

"Thanks for the prompt shipment as well as your generosity and the nice surprise extras. The bulbs were lovely clean stock. Have purchased bulbs from many growers but have never been treated more generously, nor received nicer bulbs." E. H. G., West Fairview, Pa.

"We must say the bulbs we received from you were the finest we ever bought from anybody and we certainly had a lot of beautiful bouquets from our garden." Mrs. F. L. J., Woonsocket, S. D.

"The bulbs I purchased from you are in bloom now. Such beautiful colors I have never seen. I have given your name to others and you will most likely hear from them." G. K., Garberville, Cal.

"Just received my bulbs this A.M. and was very much pleased. I read in your catalog that some person said that your bulbs looked like they were waxed. Well they certainly were right. They were the cleanest bulbs that I received in five different orders from other growers." E. S., Hyde, Pa.

"Received the glad bulbs. They are the cleanest, healthiest, uniform bulbs I've ever received from anyone." L. C., Bozeman, Mont.

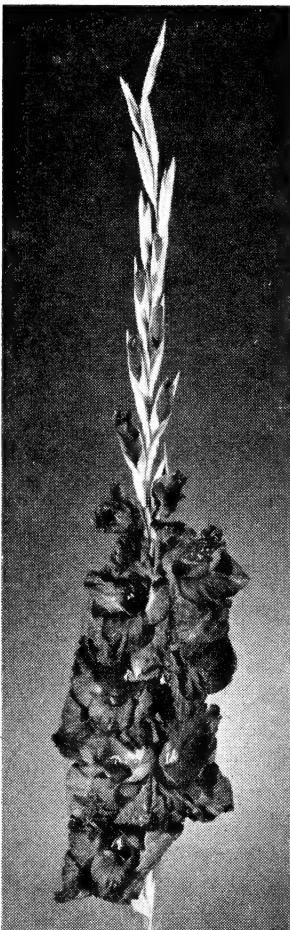

"I am sending you an order for more glad bulbs this spring. I have never had any glads to bloom and do so well as your bulbs did last summer." Mrs. E. M., Rossville, Ill.

"Have never gotten bulbs from you which did not produce fine blooms." Mrs. J. M., Tracy, Minn.

"I have never seen nicer glad bulbs than the ones you sent me." Dr. M. S. N., Granite Falls, Minn.

"My bulbs arrived this morning. All were in the very best condition and such a fine lot of bulbs was not received by me in my 15 years of buying bulbs anywhere. Yours are tops, not a speck or diseased bulb in the whole lot." W. L. R., Pleasantville, N. J.

1952 Introductions

ROYAL TREAT

ROYAL TREAT

452 (Lins 1952)

A very ruffled deep blood red Burma seedling, which produces 54 inch average plants with long flower heads of 20-23 buds. Opens 7-8 ruffled florets of heavy texture, with 10 additional buds in color. Florets are well attached and well placed. Produces many bulblets which grow about 100%. Blooms midseason.

Any Size Bulb — \$2.00

1 Bulb and 10 Selected Bulblets \$4.00

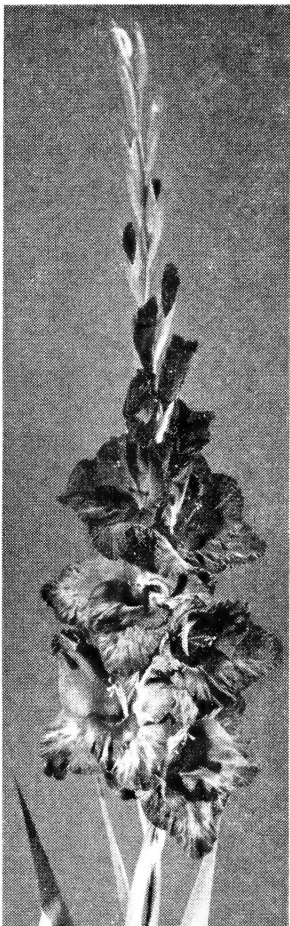

WILD FIRE

436 (Lins 1952)

An early blooming, very brilliant, ruffled, flame red Burma seedling. Florets are extremely ruffled, wide open, well attached and well placed. Plants average 4 feet with 18 bud flower heads. Opens 6-7 ruffled florets of heavy texture with 6-8 additional buds in color. Produces many bulblets which grow about 100%. WILD FIRE has been checked five blooming seasons and seems to be getting better each year. The beautifully formed, ruffled, velvety, flame red florets will delight you.

WHITE TOWER

WHITE TOWER

501 (Lins 1951)

EARLY BLOOMING tall stately WHITE TOWER ranks among the best blotched whites. Few glads come up to it in height, vigor and reliable performance. The sturdy plants of WHITE TOWER withstand strong wind.

The large well attached florets are pure white with a deep pink blotch.

Its non-crooking tall plants, perfect floret attachment, heavy texture and easy propagation suggest commercial and exhibition possibilities.

MARVELOUS

443 (Lins 1951)

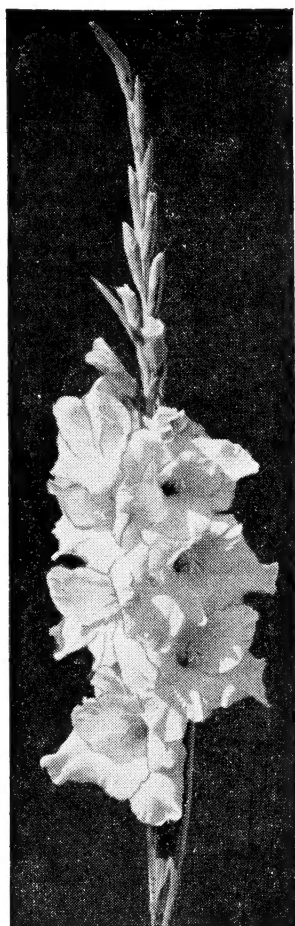

Exquisite, ruffled, deep shell pink with a scarlet throat blotch. The heavily ruffled, wide open, perfectly attached florets, of heavy texture, are always perfectly placed.

Plants are tall, always straight, with medium flower heads. Everything considered, MARVELOUS is an excitingly beautiful variety. Blooms late midseason. Picture on front cover.

1951 NAGC rating: Purdue University (A) Color value (Excellent); Straightness (Excellent); Placement (Excellent); Overall appraisal (Excellent). SPECIAL COMMENT: "This seedling under No. 34-51 is an excellent seedling. Some side shoots are present. This seedling is the best in this year's trials."

FLAME GIRL

536 (Lins 1950)

The ultimate in brilliant color. Florets are large and somewhat waved. Its color is the brightest pure flame scarlet imaginable. The plants are tall with long flowerheads. Blooms midseason and is a good propagator.

In spite of its faults of having somewhat loose attachment and an occasional spike crooking, it can be the thrill of the season. We had many perfect spikes of this last season.

BLACK PANTHER

554 (Lins)

LARGE BLACK RED. Opens 6 six inch wide open florets with 5-6 black buds in color, on tall plants.

There is no Picardy blood in BLACK PANTHER. This perhaps accounts for this variety not having declined in vigor.

TREASURE ISLAND

TREASURE ISLAND

540 (Lins 1947)

Ruffled, large, beautifully formed warm light orchid pink TREASURE ISLAND combines size with perfection of form and high color value.

It is as dependable as Rosa Van Lima (one of its parents) but much more beautiful and refined, in spite of its large florets and vigorous growth.

This is about as reliable and perfect a light pink as can be found. TREASURE ISLAND plants are always straight, florets well attached and always perfectly placed. It blooms early, is a good propagator. If you want an early top notch light pink which is practically a 100% cutter grow TREASURE ISLAND.

"The blooming of TREASURE ISLAND was the grandest surprise we've had in several seasons. It easily tops our list of favorite pinks and is now included in our list of 'MOST BEAUTIFUL'. It came straight as a steel rod without pampering. The color was lovely and the florets most beautiful. Yes, Mr. Lins, thank you for TREASURE ISLAND. Others are going to be happy about it too, as soon as it is 'discovered'." L. P. M., Willoughby, Ohio.

"We sure were well pleased with all your bulbs. We had a grand spike of TREASURE ISLAND. It is a pleasure to own one like that." Mrs. C. W. J., Clearbrook, Minn.

"Your TREASURE ISLAND is lovely. I want more of them." M. R., Templeton, Mass.

MARQUEETA

DREAM CASTLE

DREAM CASTLE

340 (Lins)

Ruffled coral pink DREAM CASTLE opens practically the whole flower head before the lower florets wilt. A spike with 10-12 open florets is not unusual. It is noted for its non crooking perfect spikes, in fact some growers consider it one of the best varieties in its class. A vase or basket of DREAM CASTLE lasts twice as long in good condition than most varieties. Produces good spikes from even the smaller bulbs.

For two years now I have been observing DREAM CASTLE. As far as I am concerned, there are only two classes of gladiolus, the really fine commercial and all the rest. I have always taken great pride in my ability to distinguish between them. The first year with DREAM CASTLE I studied long and late without coming to a decision. It had many good qualities but it was not a large bloom. But this year I have definitely come off the fence and definitely placed it on my list of fine commercials. Its good qualities too greatly overbalance its weak points. W. E. S., McComb, Miss.

Just received your catalog and told my wife "Do you know this fellow has really put out a bunch of mighty fine glads." That is surely true as I have quite a few of them. When DREAM CASTLE first bloomed, I selected it as nice enough to take home for personal use. I'm surely glad I did because the next day or so I realized it was a knockout. I'm also very fond of TROCADERO. E. M., St. Clair Shores, Mich.

Your bulbs did O. K. by me. Visitors fell in love with JINGLES. DREAM CASTLE is the best 300 size pink on the market. R. H. D., West Barrington, R. I.

Just a word about glads. DREAM CASTLE is one of my top favorites. I've grown it for three years and it rates A plus consistently. KENWOOD is another one that rates very high with me. And, as for the quality of bulbs, yours just can not be beat. L. S., LaSalle, Minn.

TREASURE CHEST

This unlabeled collection, in many shades, types and colors, is just the thing for people who don't want to bother growing glads under names but who do want nice glads.

WE HAVE ONLY ONE UNLABELED COLLECTION.

If the varieties in our **TREASURE CHEST** were bought under name they would cost many times more.

Surplus bulbs of high priced varieties as well as good standard varieties and surplus bulbs of advanced seedlings from our trial ground go in the Treasure Chest. Many varieties in this collection are obtainable only from us. We have many enthusiastic reports on this from all over the country and get repeat orders each year from well pleased customers. We can make this bargain price because we grow our own bulbs.

WITH EACH 100 BULB COLLECTION WE INCLUDE FREE—a labeled variety costing \$1.00 or more—of our selection.

100 Large Bulbs, Prepaid in USA	\$4.95
100 Medium Bulbs, Prepaid in USA	\$3.75

ATOM Unbloomed Seedling Bulbs

Here is an opportunity to get unbloomed seedling bulbs.

Due to the fact that small glads are becoming more popular each year, we grew a considerable amount of seedlings from small varieties and miniatures in 1951. We have perhaps four thousand seedling bulbs grown from open pollinated seed of graceful and popular ATOM, which is described in this catalog section. These are small seedling bulbs ranging in size from a bulblet to a No. 6 bulb and of course have never bloomed. These are each an individual seedling, as no two seedlings are exactly alike. We intend to grow half of this lot ourselves. Some of these small seedling bulbs should bloom this season and all should make nice bulbs for the following season.

It's fun to grow seedling bulbs, because each is different. Some shouldn't happen to a dog but the next one in the row may be a thriller. Who knows, you may hit the JACK POT.

15 small mixed sizes unbloomed seedling bulbs \$1.00; 100 bulbs \$5.00

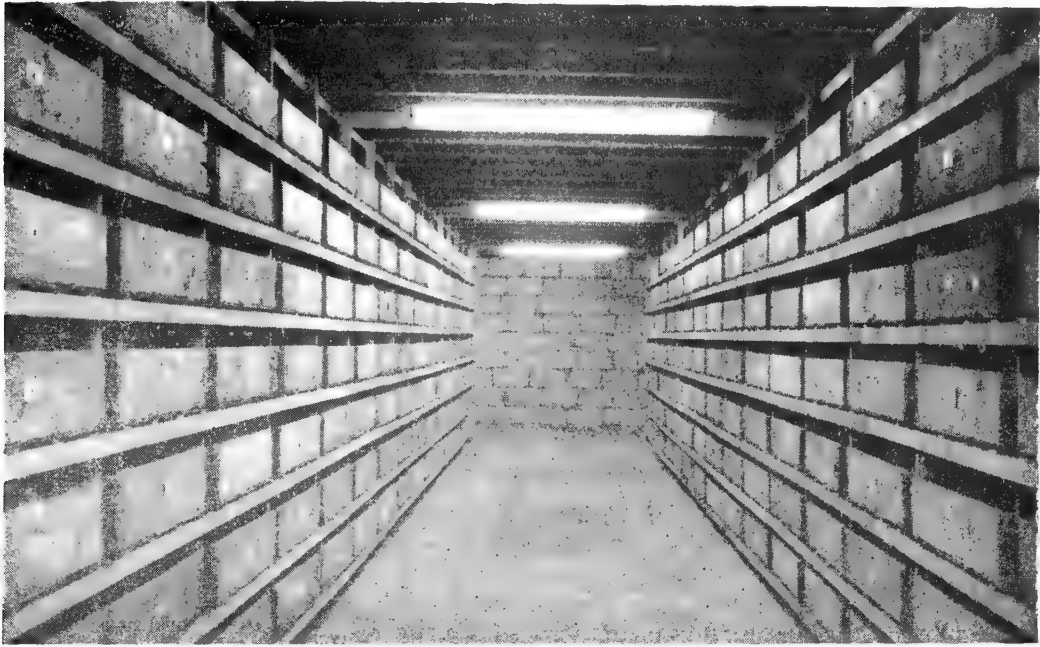

LINS PEONIES

Lins peony originations are found in most distinguished peony collections. We have been awarded sweepstakes several times by the Minnesota Peony Society for winning most points showing only Lins originations.

Our Bulb Storage Facilities

SECTIONS OF OUR AIR CONDITIONED BULB STORAGE.

PHOTOS SHOW TWO OF THREE CORRIDORS.

Varieties grown in quantity are stored in 26 by 36 inch screen bottom trays.

TUBEROUS BEGONIAS

Giant Double Camelia-like Flowers

These are really gorgeous and easy to grow. They love light shade. Planted in a flower box or directly in the ground, north of the house or other location where the sun does not scorch them most of the day, they will produce large gorgeous, exotic bloom. They love rich light soil. They bloom all summer. Bulbs are stored over winter and replanted again next season. We offer large bulbs 2 inches across. They produce larger bloom than the smaller cheaper bulbs.

Your choice of **PINK; SCARLET; YELLOW; SALMON**; 35c each; 3 for \$1.00—Postpaid.

GLOXINIAS

This is one of the most beautiful pot plants. The modern Gloxinia is a great improvement over the older varieties most people are acquainted with. They bloom over a long period and the bulbs last for years. If you have not grown the modern Gloxinia, by all means try a few now. You will be delighted. They are easy to grow. We offer large bulbs, 1½ to 2 inches across, of the following outstanding varieties:

PRINCE ALBERT—Darkest violet, beautifully frilled.

RIO DES ROUGES—Huge crimson scarlet, beautifully frilled.

TIGRINA—Large bloom is veined and spotted in a mixture of pink, blue, purple and red markings on white.

Large Bulbs, 1½ to 2 inches across...40c; 3 for \$1.10—Postpaid

AMARYLLIS

Giant American Hybrids

Amaryllis have always been one of our favorite flowers. They are easy to grow and bloom soon after planting in the garden or in pots. They carry from two to four 6 to 10 inch exotic tropical flowers on one stem. We've had them with four 10 inch flowers on a stem. Bulbs are good for years. These come in mixed colors, from light to pink thru red shades.

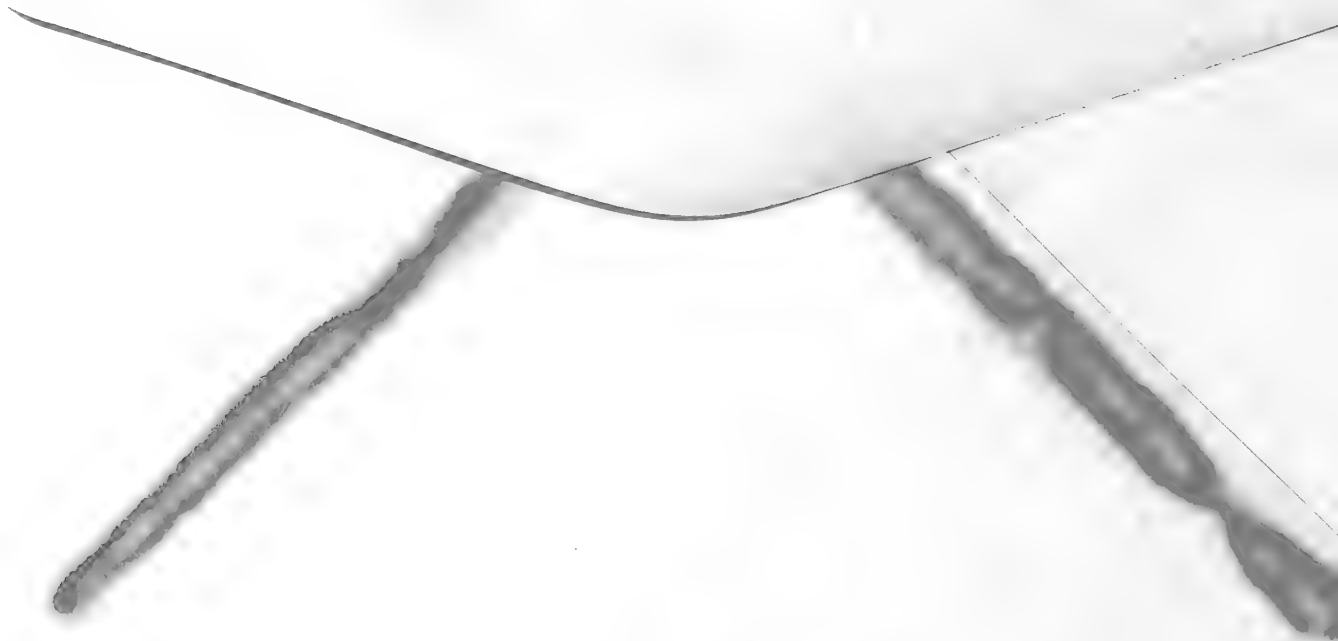

Large, 3 to 3½ inch, Bulbs65c; 3 for \$1.75—Postpaid

We can ship T. Begonias, Gloxinia and Amaryllis bulbs with glad bulbs.

NO ORDERS FROM THIS CATALOG UNDER \$2.00.

GLADIOLUS CULTURAL DIRECTIONS

A plot which will produce good vegetables will produce good gladiolus spikes. Select a planting plot as far from trees or buildings as possible. Tree roots rob the ground of moisture and buildings reflect heat.

BE SURE TO DISINFECT THE BULBS BEFORE PLANTING to destroy thrip and to kill certain disease germs. **THRIP** are tiny insects, which damage the flower spike even before it emerges from the plant, they live over winter on the bulbs, unless they are dusted with DDT while in storage over winter.

TO DISINFECT THE BULBS USE ONE OF THE FOLLOWING DIPS:

LYSOL DIP — 4 teaspoonsfull of Lysol dissolved in 1 gallon of water. Soak bulbs in this solution 3 hours. Plant while still wet, in moist ground.

NEW IMPROVED CERESAN OR CERESAN M- DIP — 1 ounce Ceresan, 1 tablespoonfull of Dreft dissolved in 3 gallons of water. Soak bulbs 15 minutes and plant while still wet, in moist ground. This is a powerful dip and must be handled carefully.

To keep the separate lots separate while dipping, place each separate lot in cloth bag, labeling each bag.

PREPARE YOUR GLAD BED WELL by spading deep and adding plenty decayed cow manure if you can get it, otherwise use a commercial fertilizer, such as **VIGORO**. Plant bulbs 5 to 6 inches deep. Space them 6 inches apart in the row.

Since all people do not kill thrip at planting time, there is danger of getting thrip from other gardens because thrip can fly and are also carried by the wind, so when your glads are about 6 inches high start spraying or dusting to prevent thrip injury.

Make a spray solution by dissolving 1 ounce of 50% wettable DDT in 3 gallons of water. If you prefer dusting use 5% DDT in a small dust gun. **SPRAY OR DUST EVERY 10 DAYS** up to blooming time.

WATER

Don't expect to grow tall glads with long flower heads unless you give them plenty water. After the flower spikes start emerging, give them a good deep soaking once a week. A light sprinkling actually harms them, as it draws the roots to the hot surface.

Glads are primarily cutflowers. Cut the spike when the first flower opens and develop them indoors. They will open in water, and you can enjoy them indoors a long time. When cutting the spikes leave at least 4 leaves on the plant to develop the bulb for next year.

October is the usual bulb digging month. Lift the bulbs with a spade. Cut the stem off close to the bulb. Dry them in shallow boxes or trays until dry enough to remove the old bulb and roots, then dust the cleaned bulbs with 5% DDT and store in cloth bags, screen bottom trays or shallow boxes in coolest place you have but they dare not freeze.

ALL THESE DIPS, SPRAYS and DUSTING MATERIALS ARE POISON!

1952 Introductions

FORSYTHIA (Harris) A proven outstanding new yellow. Plants are 55 inches tall with 26 inch flower heads. 20 buds, 8 open, with 8 in color. Florets are ruffled and fluted and stand heat and drought well.

1 bulb \$2.00; 1 bulb and 3 bts. \$3.00

INDELIBLE (Harris) Bright purple. 50 inches tall in the field. 25 inch flower head of 18 buds. 8 open with 6 in color. Straight with excellent facing and substance. Exhibition and commercial. 1 bulb \$2.00; 1 bulb and 3 bts. \$3.00

ROSE GIRL (Harris) Light rose with deeper rose blotch. Tall straight. 48 inch field height. 18 inch flower head, 15 buds, 3½ inch florets. A much improved Rosette with more life to it. 1 bulb \$1.00; 1 bulb and 6 bts. \$2.00

EDITH WARR (Warr) Possibly the finest pink gladiolus. Opens 8 huge 6½ inch florets with 7 in color. One of the strongest growing glads. Many judges who saw it consider it the finest pink in Class 540. Tremendous flowerheads.

Any size bulb \$3.00; bts. 3-\$1.00

ROSY WINGS (Vergote) Beautiful light rose, ruffled, heavy texture. Grows 56 inches tall with 27 inch flower head. Wide open florets with up to 10 open and 8 in color, lying flat against the stem. A coming commercial.

Any size \$2.00; Bts. 25c each

ROSITA (Woods) A glorified medium rose with the most wonderful color imaginable. Ruffled, needlepointed florets which lie close to the stem. Said to be a masterpiece in the large rose class.

M \$2.00; S \$1.00; bts. 75c each

NOVELTY QUEEN

(441) (Dale) 1950

This is the **Double Dragon**, which has caused a sensation. It has spurs on the back of the petals, also has spurs on feather petals on the front, which together with its ruffling and all, fill up the flower to resemble a Pom Pom. The older the bulbs get the better. Color is a rosy salmon. If you want something **ENTIRELY DIFFERENT**, this is it.
